Describe the issue or problem and what you are requesting:

We live in the Oxford Ridge neighborhood in Bentonville. Our neighborhood is close in proximity to the Bentonville Community Center, Bright Field Middle School, Willowbrook Elementary School, and Fulbright Junior High. Since we live next to highly visted areas individuals who don't live in the neighborhood will use our streets to cut through to get to their destination quicker. I'm requesting the city to install "speed cushions". Speed cushions allow regular vehicles to be slowed while allowing emergency vehicles to operate at the speed they need to. Speed cushions have wheel cutouts that allow large vehicles to pass unaffected, while reducing passenger car speeds.

Describe the issue or problem and what you are requesting:

The issue we are having is that we live in a block of townhomes and Tourmaline Mews is the street that runs behind our complex. We were told by the POA that the entirety of Tourmaline Mews is a fire lane and that no one is allowed to park back there. The problem is that the street it is not marked in any way as being such so people park there all the time. We have a few units that are being used as weekend/short term rentals who park in back and there is a business on 6th Street that continuously has employees and clients parked back behind us on the street. We've been blocked in our garage at times and have had difficulty pulling into our garage often. Due to the scheduled opening of the new museum one block over, if we do not have some No Parking or Fire Lane signs in place, the residents of Tourmaline Urban Lofts will be battling this much more frequently, perhaps daily. I am requesting signs placed as soon as possible as the museum opens in February.

The Issue or problem:

We are concerned about the roundabout on J street directly in front of Legacy Village Independent Care and the Amazeum/entrance to Crystal Bridges. The concern is the inability for people to SAFELY cross the street. First off, this roundabout is central to Bentonville's main attractions that appeal to all ages. Second, it is next to Memorial Park. Third, it is directly in front of a Legacy Senior Care village where people live without supervision. Fourth, it is down the road from the Alice Walton Children's center. Fifth, that roundabout will become exponentially busier when the massive apartment complex opens just yards away.

All that being said, there is yet another significant problem. I stood at the crosswalks and tested this myself and was shocked. When a pedestrian is crossing the street and their back is to oncoming righthand traffic, those cars rarely stop. It is difficult for drivers to see these pedestrians until it is too late to stop. Moreover, the concept behind a roundabout is to allow for a continuous flow of traffic. Cars are to yield but, the goal is NOT to stop.

It is very disheartening to think that many of the people from Legacy Village that might walk to visit Crystal Bridges are unsafe. Perhaps a family member might want to push a wheelchair or a stroller across to the park and realize they must play the odds. As I stood on the crosswalk, however, I think people of all ages are playing a game of chance when crossing. People that cross have to be aware of not only the traffic in front of them but traffic coming from all directions. It is a game of chance.

Bentonville is an amazing town. I am proud of Bentonville's push to make the streets bike friendly. I am a cyclist. This crosswalk is neither walker nor bike friendly. We NEED pedestrian operated flashing lights that signal traffic to STOP and tell walkers to GO. Why do we have to wait for an accident? I have watched near misses on that roundabout and talked to many runners and bikers that avoid that crossing. Unfortunately, our walkers at Legacy and surrounding areas do not have another safe crossing alternative within a reasonable distance. Even if they walked all the way up to Tiger and then back on the other side of J, the sidewalk ends.

Please consider the safety of our citizens and take in to account the unique location to the major sites, childcare facility, park, apartments, and senior care.

As residents of Razorback Dr. we want to express our concern about the ongoing and increased parking on a residential street that was required by the city. The recurring problems for residents are blocked driveways, post boxes, and trash containers. The cars parked on the street block the view of the street and oncoming traffic. We are requesting that this problem be solved.

Describe the issue or problem and what you are requesting:

I request to close the street from the library parking lot entrance to 4th street (but not blocking 4th street) on Saturday, May 2nd, 2020. We have a large program that day and plan to use the utility building across the street and the park, so safety is a concern. We used to close this street for our former Remy Day celebrations.

We expect 2500+ people.

Describe the issue or problem and what you are requesting:

Requesting street blockades in designated areas, see attached map, for an Open Streets event on Sunday, May 31 from 10am to 5pm with event running 12pm to 4pm. Open Streets promotes healthy, active living through a series of free events held across the region, opening the city's largest public space, its streets, to the non-motorized public to walk, bike, skate, and discover through active transportation. Open Streets events foster civic pride, stimulate economic development, and represent community investments in vitality, livability, and diversity. During the event, residences can be guided out by staff or volunteers in case of emergency.

Describe the issue or problem and what you are requesting:

Bentonville Parks & Recreation is requesting a small adjustment to the approved Bentonville Half Marathon course on April 4th, 2020.

Instead of turning onto C St., runners would continue onto 8th street and turn left on SW A St. then meet up to the original course proposed.

Attached is the old vs new request.

We have met with Police and Fire regarding this reroute.
