Active Transportation Advisory Board

Meeting Minutes

April 2026

Meeting Date: April 21, 2026
Meeting Called to Order: 12:04 p.m.
Meeting Adjourned: 1:05 p.m.
Meeting Location: Adult Recreation Center
Members: Becky Seba, Christina Johnson, Evan Springer, Jason (JP) McCrory, Jocelyn Lampkin, Monica Diodati
Members Not Attending: Ashley Calderon, Luke Powers, Shannon Reyenga, Steven George
Attending Staff Members: Braedyn McBroom, Dan Weese, Josh Stacey, Nathan Izard, Tracy Acosta, Tyler Overstreet
Guests: Sargent Josh Holland, Bentonville Police Department

New Business

Josh Stacey introduced Sargent Josh Holland with the Bentonville Police Department. Josh Holland explained the police accident report to them board. The board members discussed traffic safety concerns and how contributing factors are documented in accident reporting. Clarification was asked that a lack of a listed contributing factor does not necessarily indicate that no fault or negligence occurred, but rather that the incident may not have met state reporting requirements. Additional discussion included:

- Failure-to-yield considerations
- Differences in reporting standards
- Pedestrian and cyclist safety concerns
- The need for better visibility and documentation related to incidents

The board discussed city responsibility for sidewalks and the ongoing issue of sidewalk gaps throughout the community. Topics included:

- Whether the city should assume full responsibility for sidewalk construction and maintenance
- The current development-driven sidewalk model
- Delays caused when waiting for private development to install sidewalks
- Potential funding mechanisms, including taxes, impact fees, and Tax Increment Financing (TIF) districts
- Agreements between developers and the city regarding right-of-way improvements

Members expressed concern that waiting on development projects contributes to incomplete pedestrian networks.

Board members reviewed local bicycle regulations and discussed how sidewalk riding is treated in different municipalities. Discussion points included:

- Municipal authority to regulate sidewalk usage
- Examples from nearby cities where bicycles are prohibited on sidewalks
- Clarification that no similar regulation currently exists locally
- Idaho Stop rules and how they apply only when cyclists are operating on roadways, not in crosswalks

The board also discussed cyclist and pedestrian interactions at crossings and shared-use areas.

Construction and Temporary Pathway Conditions

Board members discussed ongoing construction impacts on sidewalks and trails. Topics included:

- Detours affecting pedestrians and cyclists
- Temporary sidewalk closures
- Concerns about unfinished or disrupted pathways
- The importance of maintaining accessible routes during construction projects

A member referenced opportunities for staff or contractors to address issues before concrete or infrastructure work is finalized.

Construction and Temporary Pathway Conditions

Board members discussed ongoing construction impacts on sidewalks and trails.

Topics included:

- Detours affecting pedestrians and cyclists
- Temporary sidewalk closures
- Concerns about unfinished or disrupted pathways
- The importance of maintaining accessible routes during construction projects

A member referenced opportunities for staff or contractors to address issues before concrete or infrastructure work is finalized.

311 Requests and Sidewalk Repair Concerns

Board members discussed resident experiences using the 311-reporting system.

A specific concern was raised regarding a section of sidewalk near the compost facility where approximately 20 feet of sidewalk had been removed and left unpaved for an extended period.

Discussion included:

- Delays in repair work
- Status updates received through the 311 system
- Clarification on what different 311 response statuses mean
- Concerns about communication and follow-up on submitted requests

Additional informal discussion occurred regarding:

- Community communication
- Online information sharing
- Signage and crossings
- Trail and sidewalk connectivity
- Marketing and outreach related to active transportation

Josh Stacey shared with the board; our department has been approved to hire five new positions. The positions include Business Manager, Planning and Construction Manager, Project Planner, Marketing and Communication Manager, Marketing and Communication Specialist.
