Requested approval for a construction dumpster at 110 W. Central for the remodel of the building. The space is being remodeled to change from a single tenant space to three separate tenants. With the scope of the remodel, we anticipate the project to take three months. See attached site plan showing the proposed location of the dumpster.

- Committee discussion included pedestrian access, safety measures, project duration, and the requirement to obtain a Right-of-Way Permit for documentation and coordination purposes.

Motion: Approve placement of the construction dumpster through August 31, 2026, provided appropriate safety measures remain in place and a Right-of-Way Permit is obtained.

Motion by: Chief Ray Shastid

Second by: Cindy Acree

Voice vote: Approved unanimously.
