Bentonville Parks and Recreation Advisory Board Meeting Minutes May 4, 2026

Meeting Date: May 4, 2026

Meeting Called to Order: 5:03 p.m.

Meeting Adjourned: 5:47 p.m.

Meeting Location: Adult Recreation Center

Members Attending: Allyson de la Houssaye, Austin Bryan, Brady Blake, Brooke Spenser, Chris Sooter, Jon Terlouw, Ty Hoffine

Board Members Not Attending: Kristin Kuhlow, Ryan Hollingsworth, Tacuma Williams

Staff Members Attending: Creek Wenger, David Wright, Greg Hughes, Josh Stacey, Tracy Acosta, Wade Tomlinson

Old Business

Approval of April 6, 2026, Meeting Minutes

Motion to Approve: Brooke Spenser

Second: Austin Bryan

Voted in Favor: All

Voted Opposed: All

Noted: Tacuma Williams attended last meeting

New Business

Public Art Approval – Adult Recreation Center Art Pieces

Josh Stacey shared several public art pieces from Oz Art that are currently under consideration for placement in the Adult Recreation Center. The art pieces are created by Arkansas artists and reflect natural and community-inspired themes. Josh noted that incorporating locally sourced artwork supports regional artists while strengthening community connections to public spaces. A motion was made to approve the public art pieces as presented.

Motion to Approve: Brooke Spenser

Second: Ty Hoffine

Voted in Favor: All

Voted Opposed: All

ARC – Soft Opening Review + Grand Opening Plans

We hosted a soft opening for the Adult Recreation Center on April 30, 2026. This was limited to premier members to evaluate operations, manage capacity, and identify issues ahead of full public opening. The soft opening was successful and provided valuable insight into access control, parking flow, and overall member experience, with adjustments being made as needed.

It was noted that the lower level of the parking deck will be reserved for ARC members during primary weekday and Saturday morning operating hours, with membership required for access. Updates to the layout are also underway to improve efficiency and ADA accessibility.

Staff emphasized that the phased opening approach is intended to ensure a smooth transition into full operations and a high-quality user experience. Staff are evaluating the potential for adjustments to hours of operation. Any proposed changes will be based on further data analysis and operational review.

Parks and Recreation Organizational Structure

David Wright provided an overview and updated the board on the Parks and Recreation Department organizational structure, driven by ongoing growth, increased capital projects, and expanded operational needs.

David noted that the department is currently managing multiple large-scale capital improvement projects while continuing to support daily operations, which has created capacity issues and bandwidth challenges. In response, the department has pursued a strategic reorganization and grant request to support several key positions aimed at strengthening long-term operations.

Additional positions include Marketing and Communications Manager and Marketing Specialist-Graphic Design. This will improve internal communication, marketing efficiency, and revenue generation through sponsorship opportunities. It will allow us to produce in-house processes and not depend on external vendors for graphic design and the need for more responsive, in-house capabilities.

We proposed a new position, a Planning and Construction Manager which our current staff member, Wade Tomlinson, will step into. This will provide increased oversight of capital projects, including more consistent on-site construction monitoring and quality control. A Bike and Pedestrian Planner and Project Manager positions were also created.

A Business Manager position has already been filled and will support financial tracking, grant reporting, and administrative functions associated with the department's expanding operations.

Several of these positions may be initially funded through external support, with the intent of transitioning them into the department's operating budget over time. The overall goal of the restructuring effort is to better align staffing with the city's growth, improve efficiency, and support the increasing scale and complexity of Parks and Recreation services.

Parks and Recreation – 10 Year Master Plan Project

David Wright provided an update on the upcoming 10-year Parks and Recreation Master Plan process. The project will include a comprehensive review of existing community plans, a community needs assessment, and extensive public and stakeholder input at the beginning of the process.

David also noted that the planning effort will evaluate current assets, identify gaps in service, and develop long-term priorities to guide future park development and improvements. The process is expected to include broad community engagement and data collection to ensure the plan reflects community needs and growth.

Board members discussed the importance of reviewing progress on previous plans as part of the process and ensuring alignment with ongoing projects and future development. The master plan will serve as a key tool for guiding decision-making and prioritizing investments over the next ten years.

Other Business

June PRAB Meeting – Monday, June 1, 2026

David Wright confirmed a full recap of the recent half marathon event, including finalized attendance and financials, is still in progress and will be shared once complete.

Brief updates were shared on the newly renovated Parks Operations Complex including anticipated timelines for a certificate of occupancy and upcoming opportunities for board and City Council walkthroughs. The facility naming was confirmed as the Parks Operations Complex. The next PRAB meeting will be a tour of the Parks Operations Complex.

2026 Parks and Recreation Capital Improvement Worksheet

FY 2017 Projects

Project	Budget	Status
McCollum Street Sidepath Trail - Phase II	\$ 600,000	Council Bid Award - July. Construction begins September

Vehicle -F350 Reg Cab Dually Truck Facil. Position	\$ 85,000	Ordered- Delivery estimated for May

“River of Life” Artists’ Statement

One of the greatest resources in the Northwest Arkansas area is the mighty Buffalo River. It’s sometimes surprising how few people realize the things we value can come down to an individual. The intention of this sculpture is to increase awareness of the man Dr Neil Compton, and his work to save the Buffalo. As a frequent visitor to your region, I’m all too aware of his impact. I want future generations to know that one person, with a goal and the help of others along the way, can move mountains, or in this case, save rivers. For this piece, I have chosen bronze as the medium. Like the river, bronze is timeless, and the message of preserving our resources will be one that is carried from generation to generation, like a story that is passed down. The process of the sculpture utilizes age-old processes that have been around for thousands of years. This permanence is not lost on me as I strive to capture the essence of Dr Compton so that the future has a face to the name.

The sculpture components also have their own contributory meaning. The yellowwood, Compton’s favorite tree, is gnarled over into a crude bench that has seen the awesome power that the river possesses, enduring trials eternally. His trusty canoe is present as the means of locomotion on NWA’s most famous waterway. Finally, Compton himself, sitting on the tree bench, clutching the paddle that is the power behind his journeys.

He’s in a reflective pose, perhaps recounting his numerous adventures on the river, and why it was so important to preserve it. The entirety of the installation will have patina colors that reflect nature, a combination of greens and browns, hues of the Buffalo. I am very excited about this project and solidifying a legacy while making the person seem real to those that view it. I believe the work will encourage people in the future to aspire to great deeds, all starting within their own communities.

About the Artist

James Hall is a representational sculptor with over 30 years of experience in the fields of bronze, commercial, and natural history museum art. His passion is the “Art that Educates” and tells people the story of the world around them and the people that shape it. He is a graduate from Missouri State University majoring in 3-dimensional design. He has worked in the visual merchandising industry in addition to designing art pieces for public and private collections. Hall spent 10 years at Chase Studio, Inc fabricating zoological models for natural history and environmental science exhibits. James started JH Creative LLC in 2003 to create bronze and commercial sculptures for public institutions, corporations, parks, and museums. His works are worldwide and can be seen in Canada, Japan, Egypt, Germany, the UK, and the United States. He resides in Southwest Missouri.

2026 Run Bentonville Half Marathon

Event Summary

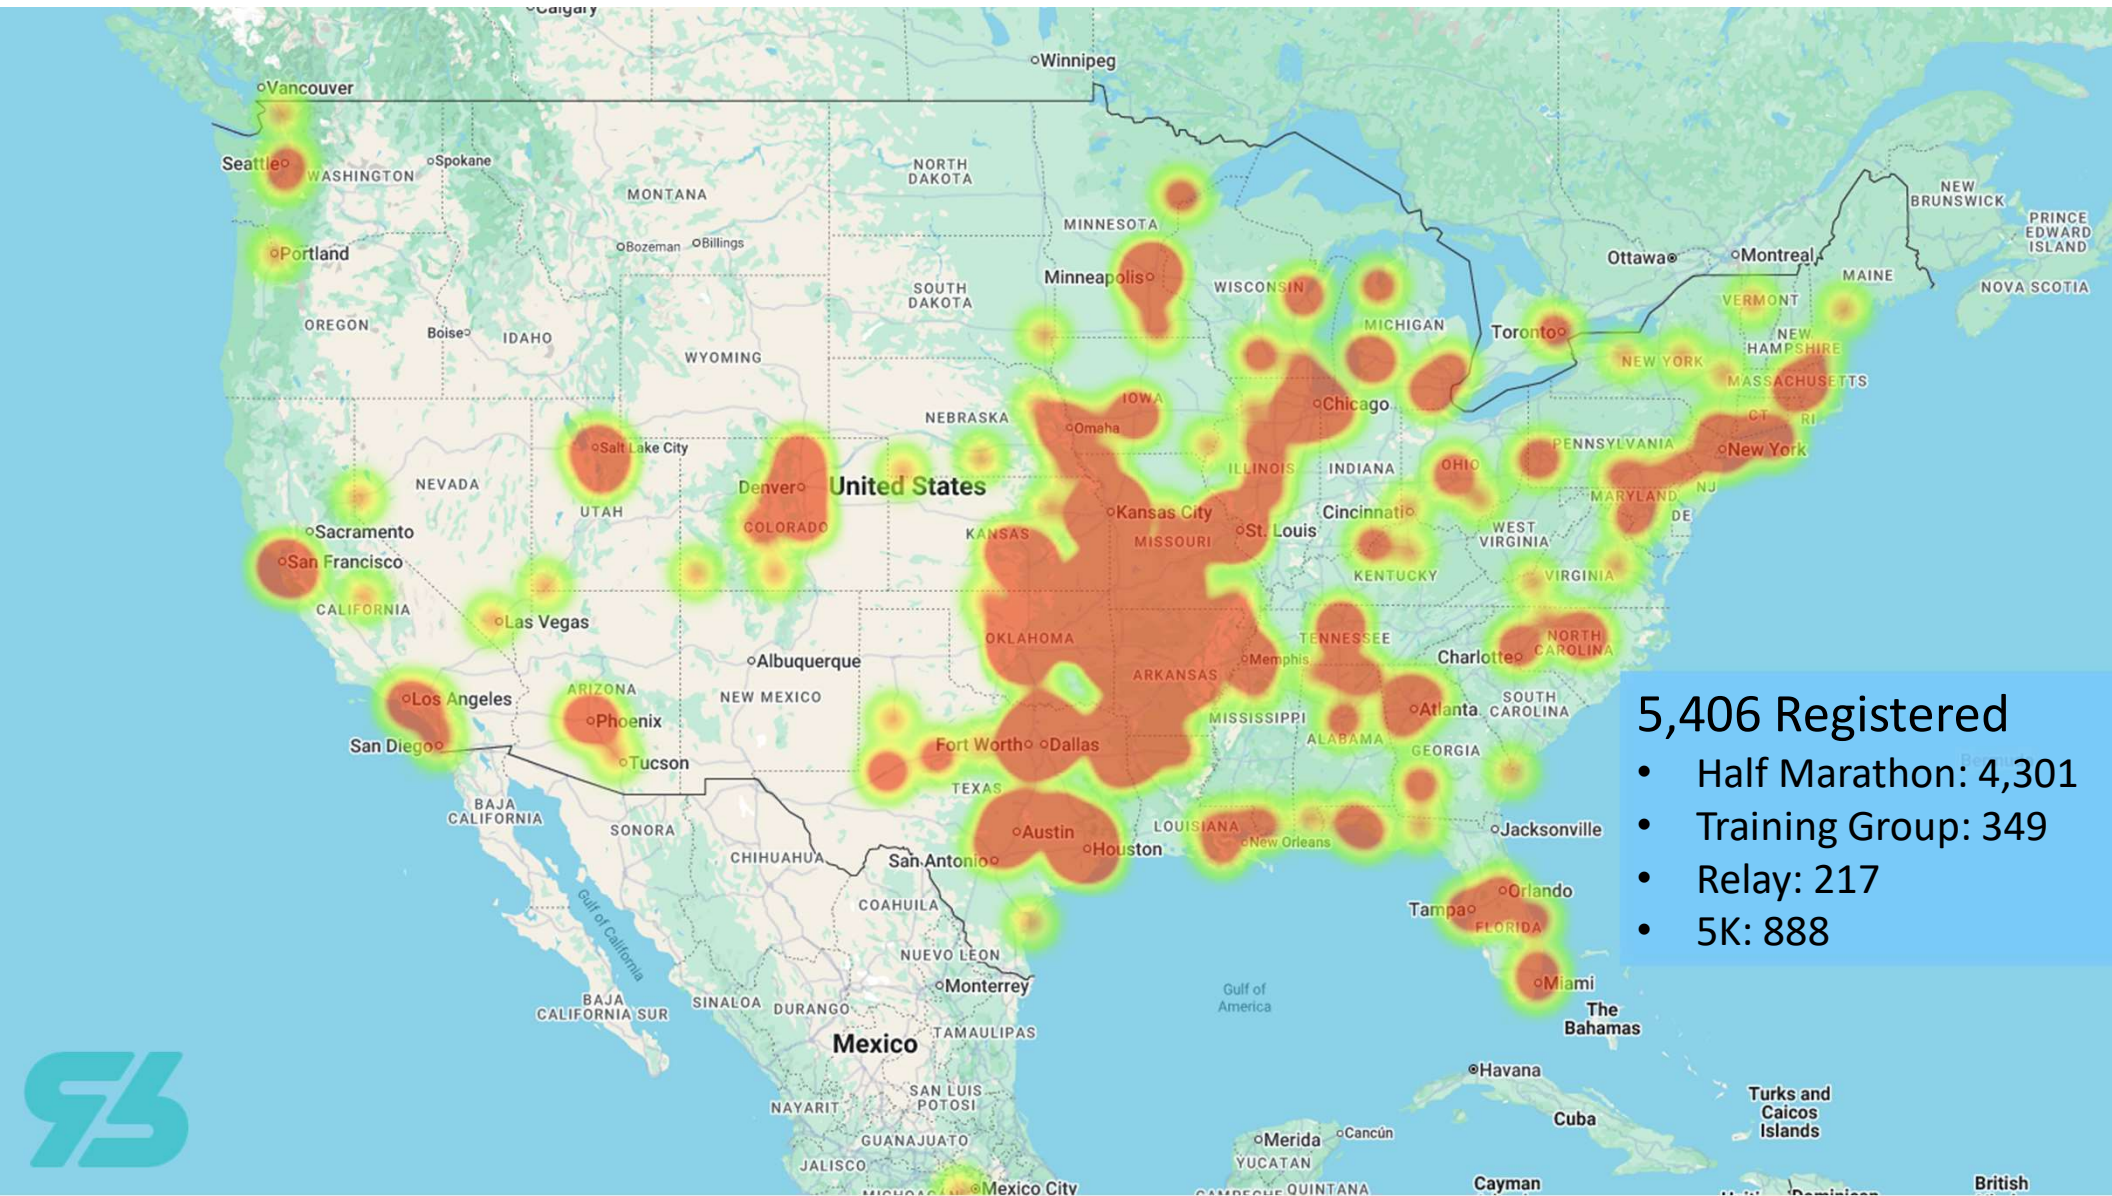

The 16th Annual Run Bentonville Half Marathon took place on April 4, 2026, bringing thousands of runners and spectators to Downtown Bentonville for one of Northwest Arkansas' signature events. The success of the event was made possible through the collaborative partnership between Bentonville Parks and Recreation, the Bentonville Fire Department, Bentonville Police Department, community partners, and over 180 volunteers who worked together to provide a safe and memorable race experience.

Registration and Economic Impact

- The event welcomed 5,406 registered runners, representing 41 states and five countries, including the United States, Mexico, Canada, the United Kingdom, and Chile.
- The estimated economic impact of this years Half Marathon is approximately \$1.52 million, nearly \$400,000 more than 2025.

Financial Impact

Revenue

- Registration Revenue - \$404,569.41
- Sponsorship Revenue - \$73,500.00
- Gross Revenue - **\$478,069.41**

Expense

- Expenses - **\$298,171.85**

Net Revenue = \$179,897.56

2026 Square 2 Square

Event Summary

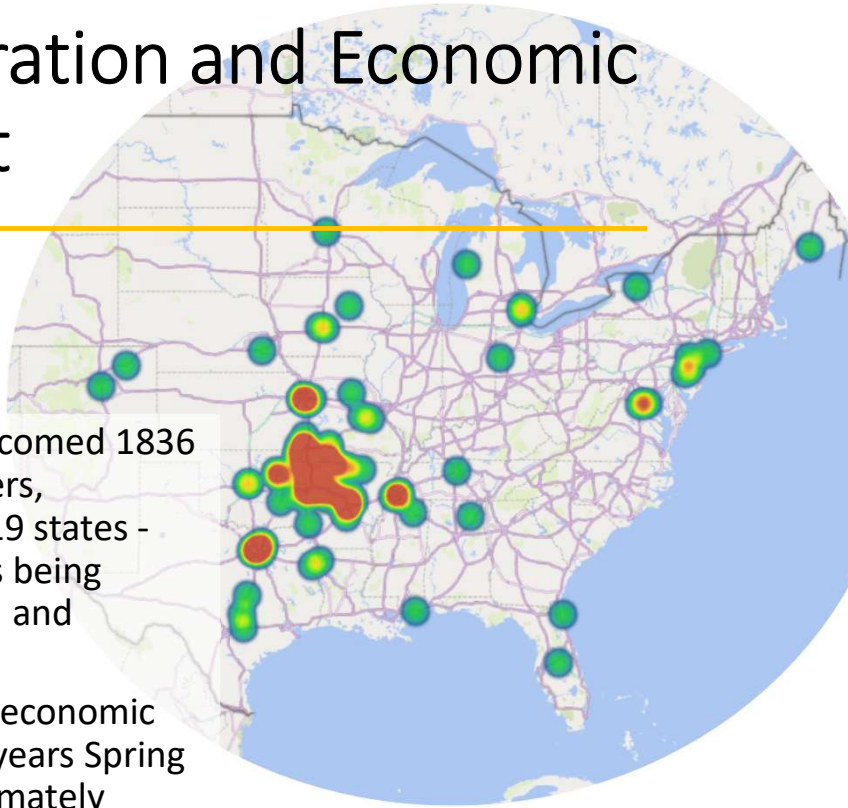

The 2026 Spring Square 2 Square Bike Ride marked the first half of the event's 11th year of connecting communities along the Razorback Greenway. In partnership with Fayetteville Parks and Recreation, the event continues to promote healthy lifestyles, outdoor recreation, and regional collaboration.

This spring, riders started in Bentonville and completed the 32+ mile ride to Fayetteville. Along the route, staff were joined by more than 30 volunteers who helped ensure a safe and fun experience for all participants.

Registration and Economic Impact

- The event welcomed 1836 registered riders, representing 19 states - furthest states being Maine, Florida and Minnesota.
- The estimated economic impact of this years Spring Ride is approximately \$35,700.

Financial Impact Spring 2026

• Revenue	
• Registration Revenue	- \$61,108.00
• Sponsorship Revenue	- \$18,325.00
• Gross Revenue	- \$79,433.00
• Expense	
• Expenses	- \$41,090.14
• RGA Fee	- \$3,392.00
• Net Revenue	= \$41,734.86
*Split profits with Fayetteville	= \$20,840.66

Square 2 Square Evaluation

Victories

- Highlighting NWA Region
- Creation of Community at Pit Stops
- Goody Bags were better received this spring

Opportunities

- Share rider etiquette/safety communications
- Better marked route in some areas
- Revamp pit-stops to grow community feel

The Future of Square 2 Square

Fall Square 2 Square October 3

- Fayetteville to Bentonville
 - Finishing at Dave Peel Amphitheatre – first time Downtown since Spring Ride 2023
 - Partnering with Sponsors and other P&R departments to improve Pit-Stop activations
 - Working with DBI to mesh the Farmers Market with Square 2 Square Finish Line Celebration
 - Food Trucks and Live Music

2027 Square 2 Square

- Proposed Fee Increase
 - \$43/\$33
- Sponsorship Goals \$60,000 annually, increase of \$20,000
- Reinvest and Reintroduce the Program
 - Social Media Campaign – highlighting rider safety, route and Start/Finish Celebrations
